Reduction of Specified Conditions and optional Dental Illness Exclusion Periods

A six (6) month Exclusion Period applies for Specified Conditions, Dental Illness and/or any Illness or Injury that results from them. You may submit this Application Form to apply for the Exclusion Period to be reduced.

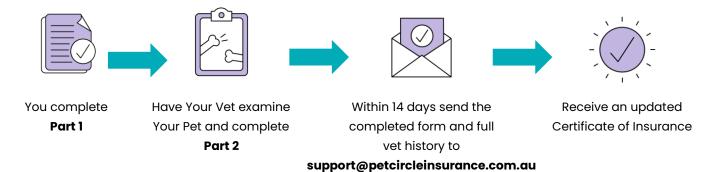

For us to consider whether a reduction of the Exclusion Period can be provided We will require this Application Form to be completed in full and Your Pet's medical history. You will be reasonably required to aid in the process of obtaining Your Pet's medical history, for example by providing details of any Vets Your Pet has seen in the past.

Once We have completed our review of Your application, We will confirm the outcome to You and if applicable provide You with an updated Certificate of Insurance which lists condition(s) We have agreed to reduce the Exclusion Period for and by how much.

What You need to do:

- Arrange a Vet to examine Your Pet (at Your expense) and have them complete Part Two of this form*.
- Note that depending on Your Pets temperament, some aspects of the exam may not be possible for Your Vet to complete.
- Usually, You would want to allow 20 30 minutes for Your Vet to complete Your Pets exam and associated paperwork.
- It is Important to provide Us Your fully completed application form within 14 days of the exam date to avoid needing to have it completed again.

^{*} If you are a vet, then you cannot do the examination yourself. This also applies if the examining vet is a co-owner of the policy or a relative.
